

Here's the rewritten text with improved writing quality, clarity, and flow:

****Spices that Heal Us: NCERT Class 6th English, Poorvi Chapter 9 Questions and Answers****

Before we dive into the chapter, let's engage in some pre-reading activities. (Page 93)

****Question 1: Exploring Spices at Home****

A spice is any part of a plant, such as a seed, fruit, root, bark, or leaf, used to add flavor and color to our food. Think about the spices commonly used in your household. Try to recall the names of three spices used for cooking at home. Write them down and share your answers with your teacher.

(a) _____

(b) _____

(c) _____

****Answer:****

(a) Coriander

(b) Cardamom

(c) Turmeric

****Question 2: Identifying Spices****

Examine the photographs of various spices provided below. Work in pairs to identify each spice in your native language. The English names of the spices are listed in the last column. Share your answers with your teacher.

Note: I corrected some errors in the original text, including spelling mistakes (e.g., "persn" to "person", "fuckng" to "cooking", "Corriander" to "Coriander", "Cardaom" to "Cardamom", and "Turneric" to "Turmeric"). I also reorganized the text to improve its structure and flow. Additionally, I changed some phrases to make them more concise and clear.
